Description

The 230 Vac actuator module with integrated single-phase power meter (maximum current 16A/contact/meter) and Tuya Wi-Fi is the ideal solution for controlling and monitoring any electrical line, allowing remote control and real-time consumption tracking via app and 2.4 GHz Wi-Fi connection.

Compatible with a wide range of applications, this module offers reliable control even without a connection, thanks to the ability to be operated via a traditional switch.

Installation is quick and easy, and in case of network interruption, the device automatically reconnects. Perfect for making your home smart.

? Main Features:

- **Remote control via App:** Turn on, turn off, and monitor consumption from anywhere using the *Smart Life* app.

- **Universal compatibility:** Extremely compact, it can be installed in any wall box.
- **Supports traditional switches:** Even if Wi-Fi disconnects, you can still operate the actuator manually with a standard switch.
- **Automatic reconnection:** Automatically reconnects to the Wi-Fi network after interruptions.
- **Easy installation:** Just follow the instructions for a safe and fast setup.
