Description

The humidity, temperature, and light probe for outdoor applications with Modbus output is designed to monitor and control temperature, humidity, and brightness in outdoor industrial environments.

This device is integrated with the *MyVirtuoso Home* HEMS through the MyMB interface/actuator for Modbus systems (<u>Code 01335-2085-00</u>). In this way, all information is sent to the HUB, which displays the values to the user via the application.
