Description

The module with 6 digital inputs and 6 N/O and N/C DIN bar outputs is compatible with the MyVirtuoso Home system and with all systems that communicate via the Z-Wave wireless network. It is a device that can be installed on a standard M36 DIN bar and equipped with 6 relay outputs with dry contact capable of managing loads up to 16A.

In addition, the device provides 6 digital inputs for monitoring indications provided by other devices (dry contact, open collector or 10 kOhm impedance).

Each relay is galvanically isolated and can be used to control AC loads. and c.c.
