Description

The **MyVirtuoso Home 9-in-1 environmental quality sensor** is the most complete solution you could wish for to monitor air quality in homes, offices and all buildings where you spend most of your day. It can track levels of: PM2.5, temperature, CO_2 noise pollution, light intensity, humidity, volatile organic compounds, particulate matter, presence of people and smoke.

The collected data will be available both on the device display and on the MyVirtuoso Home App, which will also provide an **assessment of the general level of the environment** in which the device is placed.
