Description

The Smart Start actuators **DSE500**, which can be connected directly to the electrical line to be automated, allow remote switching on or off simply by using the intuitive **DSE1000** remote control (not included).

Thanks to the use of smart actuators, it is possible to reduce energy consumption and the economic impact on utility bills!

To activate or deactivate the **DSE500** actuators, simply press the on/off button for the corresponding device on the remote control; each remote can control up to 4 different actuators.
